

## Project Design Phase-II

### Data Flow Diagram & User Stories

Date	03October 2022
Team ID	PNT2022TMID10940
Project Name	Machine Learning based Vehicle Performance Analyzer
Maximum Marks	4 Marks

#### Data Flow Diagrams:

A Data Flow Diagram (DFD) is a traditional visual representation of the information flows within a system. A neat and clear DFD can depict the right amount of the system requirement graphically. It shows how data enters and leaves the system, what changes the information, and where data is stored.

## User Stories

Use the below template to list all the user stories for the product.

User Type	Functional Requirement (Epic)	User Story Number	User Story / Task	Acceptance criteria	Priority	Release
Customer	User Input	USN-1	As a user, I can provide the application with feedback regarding the car to the application.	I may access and modify my user input field.	High	Sprint-1
Admin		USN-2	I'll examine the model's availability as an admin.		High	Sprint-1
		USN-3	After checking, process the model in the service if it is available.		High	Sprint-1
		USN-4	then, it shows the vehicle's calculated performance.		High	Sprint-1
