## Project Design Phase-II Data Flow Diagram & User Stories

Date	03October 2022		
Team ID	PNT2022TMID10940		
Project Name	Machine Learning based Vehicle Performance		
	Analyzer		
Maximum Marks	4 Marks		

## **Data Flow Diagrams:**

A Data Flow Diagram (DFD) is a traditional visual representation of the information flows within a system. A neat and clear DFD can depict the right amount of the system requirement graphically. It shows how data enters and leaves the system, what changes the information, and where data is stored.

## **User Stories**

Use the below template to list all the user stories for the product.

User Type	Functional Requirement (Epic)	User Story Number	User Story / Task	Acceptance criteria	Priority	Release
Customer	Registration	USN-1	I may sign up as a customer for the automobile service by providing my email, password, and password confirmation.	I can access my dashboard or account.	High	Sprint-1
		USN-2	I will get a confirmation email as a client after I sign up for the service.	I can get a confirmation email and confirm it.	High	Sprint-1
		USN-3	I wish to offer the car model and the fault/problem as a client.		High	Sprint-2
Admin		USN-4	I'll examine the model's availability as an admin.		High	Sprint-1
		USN-5	When available, go to the service after confirming, then estimate the cost.		High	Sprint-1
		USN-6	If not, email a file to the servicemen with a request so they can help him more quickly.		High	Sprint-1
